

## CUSHIONS

Working with artisanal sofa makers and foam manufacturers, OHMM® cushions are expertly designed for support, comfort and durability using the latest material technology.

We use high density foam cores to ensure lasting performance, covered with Dacron® polyester fibre for comfort and good looks, then lined with replaceable water resistant spunbond material, and finally covered with Sunbrella® fabric.

We stitch using high quality German polyester threads and use robust nylon zippers and runners to ensure durability and fuss free usage.

## FASTDRY® TECHNOLOGY

If your cushions are exposed directly to rain, we recommend OHMM's revolutionary FASTDRY® outdoor cushion technology. It doesn't matter if they get wet - the foam cores will stay dry and the fabric covers dry out fast too. See Info Sheet for more information.

## FABRICS

Only the best. Sunbrella®. The most recognised and trusted name worldwide in outdoor fabrics for over fifty years - it all adds up to unparalleled performance and good looks.

Colourfast | Fade Resistant | Durable | Water Repellent | Stain Resistant | Mould Resistant | Luxurious Touch | Breathable | Environmentally Friendly | Easy Care

OHMM® Design Studio has carefully curated a colour palette of Sunbrella® fabrics giving you the freedom to play with colours and textures to style it your way.
