CHARACTERISTICS  
Spherical | Celestial | Cocooning

### COLLECTION

The Half Moon collection is a celestial ensemble inspired by the heavens above - simply the sensation of suspended relaxation. Not surprising this ensemble not only looks cosmic but feels extremely cosy. The sturdy stand is made of high grade powder coated steel. Woven in wide open caning style fibre, this stand alone piece will add a defining statement to any living space, whether indoors or outdoors. Complete the ensemble with a matching ottoman.

### CUSTOMISATION

Choose your Rehau® fibre colours - inside and outside of swing seat can be in different colours - and cushion covers to style it your way.
