

# OHMM DRYPRO+ WEATHERPROOF CUSHIONS

OHMM Design Studio has developed a revolutionary outdoor cushion technology using advanced textiles and coatings together with a proprietary construction techniques to create cushions you don't have to worry if they get rained on. Cushions you can leave under the open skies, every day, all year round.

## ADVANCED TEXTILES & CONSTRUCTION

Working with US textile manufacturers and coating specialists, OHMM has created an exclusive weatherproof and UV-resistant spunbond lining to protect the cushion foam cores from getting soaked.

A specially designed breathable spunbond and mesh window at the base of the cushions allows the foam cores to breathe and preventing any 'air bag' effect.

Proven technology at top hospitality brand installations.

## THE OHMM DRYPRO+ ADVANTAGES

- Rain will simply run off keeping the core foams dry.
- The superior quality outdoor acrylic fabrics will dry off very quickly.
- Eliminates handling during a downpour and subsequent reset.
