LED LIGHTS

Please read this guide carefully and familiarise yourself with the controls, charging socket and seal before using and keep it handy for future reference.

CHARGING & OPERATING

Lighting mode: There are 2 options - 1) solid flame and 2) candle effect.

- Indicator lights: Inside the LED lights, red indicates charging and green indicates fully charged.
- Charging time: A full charge will take approximately 6 - 8 hours.
- Lighting up time: 8 - 10 hours.
- Remote control: Ensure LED lights are charged properly before using, if not fully charged, the remote may not work properly.
- Charger: Disconnect the charger after charging and be sure to plug the charger socket seal securely.

DO'S & DON'TS

Do not try to open charger - faulty charger should be returned.

- Only use the charger provided with the unit for charging.
- Do not use outdoor when the charger socket seal is not securely in place.
- Do not attempt to remove LED light assembly - there is a risk of electrical shock or compromising the waterproofing seal.
- Do not use it near a heat source or exposed to fire.
- Do not drop the LED, this can cause damage to the internal electronics.
- To prolong the lifespan, avoid submerging in water and subject to bright sunshine over an extended period of time.
- Product isn't intended for use by children without supervision.

TECHNICAL SPECS FOR ALL SIZES

Voltage 3.7V | Lithium Rechargeable Batteries
Colour Warm White | Colour Temperature 2700K
IP Rating - 65 | Waterproof From Rain
