

OHMM OUTDOOR TABLES

What makes OHMM Outdoor Tables Special?

It's a good question. Over the past two decades we've developed key features that go into designing and making world class outdoor tables.

OHMM outdoor tables deliver exceptional high performance and are built for high usage environments.

Optional finishing options provide customisation and superior product build ensures years of lasting service.

Its all in the details. Details matter. Always.

Handcrafted fully welded 1.6mm gauge virgin aluminium frames for strength, then powder coated for enhanced corrosion protection

Choice of table top options

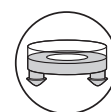

Optional parasol hole with proprietary protective grommet

Hand woven with German engineered weatherproof OHMM fibre for durability & good looks

Or powder coated with high quality exterior powder coatings

Choose from a carefully curated selection of fibre or powder coating colourways to style it your way

Proprietary glass anchors for clear glass tops to secure the glass in place

Each piece has its own unique serial number as part of our Quality Control protocols

Extra thick replaceable heavy duty adjustable gliders for durability & stability

Sizes are customisable to suit your requirements
